### **DETAILED ACTION**

This action is in response to Amendment filed March 9, 2004. Claims 18, 28 and 30 have been amended as requested by the applicant.

#### ***Response to Arguments***

Applicant's arguments, see Amendment, filed March 9, 2004, with respect to amended claims 18-34 have been fully considered and are persuasive. The rejection of amended claims 18-34 has been withdrawn.

#### ***Allowable Subject Matter***

Claims 18-34 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 18, 28 and 30, The prior art of record teaches the use of an isosceles triangle prism in a casing with left and right transmission windows to provide light to an imaging element disposed in the rear of the prism. The prior art of record also teaches internal reflection preventing means disposed on the corners of a prism. However, the prior art of record fails to teach or suggest the use of internal reflection preventive means of sufficient size on the rear side

Art Unit: 2872

of the prism to prevent stray light from the left and right sides of the prism from entering image signal of the opposing side.

The remaining claims depend from claims 18, 28 and 30 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
